## DETAILED ACTION

### *Priority*

1. The submission of a certified English translation of the foreign application (JP 2002-271968, filed 9/18/2002) is acknowledged. Therefore, US PG-Pubs 2005/0082575 (Chen et al) is not available as a prior art.

### *Election/Restrictions*

2. Claims 1-4, 6, 7, 12, 14-16, 23 and 26 are allowable. The restriction requirement of Species I-IV, as set forth in the Office action mailed on 1/21/2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 8, 10, 17-22, 24 and 25 directed to Species I-III no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Allowable Subject Matter***

3. Claims 1-4, 6-8, 10, 12, 14-26 are allowed.
4. The following is an examiner's statement of reasons for allowance: The references of record fail to disclose the device structure as recited in independent claims 1 and 26. Specifically, none of the cited references disclose a second conductivity type second nitride-based semiconductor, having a single structure formed on an active layer and an undoped contact layer consisting a nitride-based semiconductor formed directly on said second nitride-based semiconductor (claim 26); said undoped contact layer having a single layer structure and does not include Al (claim 1). The above limitations in combination with other claim limitations are not taught or fairly suggested by the prior art nor would it be obvious to modify the references of record so as to manufacture a thin film transistor device of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Sefer whose telephone number is (571)272-1921.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Davienne Monbleau can be reached on (571) 272-1945.
